

UPLOAD YOUR VIDEO HISTORY CONTENT

We want to make history available to everyone and want to help you share your history with tourists.

Yesterday Stories enables viewers to see video histories in location on their phones via a new app. We want to help your organisation reach tourists and help to provide a richer connection for viewers. We encourage you to upload your video histories free to the platform to encourage visitors to your museum and gallery and we will also give you a free ad when you upload video content. New stories are being loaded onto the platform weekly and we hope to produce more stories in your area soon. Contact us if you need help with uploading stories, but also if you wish to produce a story or wish to consider applying for a grant in partnership.

Interested in uploading your own story?

STEP 1. Download the Yesterday Stories App by scanning the QR code provided

STEP 2. Register your details to create an account
